# Decals for the AHM Helium Tank Car

Second Generation: USNX 1007-1012

Third Generation: USNX 1013-1078

7 cars relettered in 1955: ATMX 1013-1019

Changeover from USNX to MHAX/ATMX reporting marks in June-July 1955

Until 1955 all cars painted Battleship Gray

After 1955 painted gray with aluminium tanks

After 1962 painted all aluminium

All cars in active fleet were relettered to MHAX after ca. 1964

(Print or copy to clear decal paper and seal with a coat of Dullcote or similar. Cut close to lettering to keep decal film to a minimum. Apply like any other decals and seal with Dullcote after completely dry.)

Happy modeling

(c) Alain Kap
