Garden Railways

2000 Index

(17/1)

April (17/2)

June (17/3)

August (17/4)

October (17/5)

December (17/6)

This index was compiled to assist the reader in finding information in the 2000 issues of Garden Railways Magazine. It covers six issues, from February 2000 through December 2000. There are hundreds of entries, cross-referenced by article title, author's name, and subject.

Using the index

All categories are delineated as follows:

The AUTHOR'S NAME is in capital letters. Below the author's name is a listing of his/her article(s).

The Article titles are all in boldface type and are listed both under the author's name and alphabetically within the index.

The Subject listings are all entered in plain type and may include subcategories.

At the end of each listing you will find numbers, such as 17/3 24. The first number is the volume, the number after the slash is the issue number, and the last number is the page on which the article begins. The above example would translate as volume 17 (2000), number 3 (June), page 24.

The product review index

Also included is a supplemental index of all products reviewed in GR during 2000. It is cross-referenced by the type of product and the manufacturer. The **manufacturer's name** is in boldface type, and the products are in plain type. Volume and issue numbers follow each entry.
